PERFORMANCE **WITH CARE FOR THE ENVIRONMENT**

With its sophisticated and technologically advanced range of engines, DS is well placed to reconcile performance with low taxation levels and reduced environmental impact.

This means that when choosing a DS vehicle, you're assured access to superb and guilt-free motoring combined with the quality and luxury that DS offers.

› COMPANY CAR BENEFIT-IN-KIND TAXATION CHARGES

The Company Car Benefit-In-Kind Taxation charge is based upon the type of fuel used, and the level of CO_2 emissions, measured in grams per kilometre (g/km). The table opposite shows the percentage of the car's list price to be taxed (P11D value†).

For example, a DS 4 DStyle Nav BlueHDi 120 S&S 6-speed manual has a CO_2 emissions figure of 103g/km and the P11D figure of £22,440

The BIK value would therefore be 16% x £22,440 = £3,590.40 (equivalent to £59.84 pcm for a 20% rate tax payer).

› FUEL SCALE BENEFIT CHARGE

The taxable value of free fuel provided for private usage is linked to CO_2 emissions. The taxable benefit will be assessed using the same scale as for BIK, and the percentage applied against a set figure. For the tax year 2014/15 onwards this figure is set at £21,700

For example the Free Fuel benefit for a DS 4 BlueHDi 150 S&S 6-speed manual DSport would be 16% x £21,700 = £3,472 An individual driver would pay tax on these figures at their marginal tax rate.

An individual driver would pay tax on these figures at their marginal tax rate. More information about the Company Car Benefit-In-Kind Taxation Charges can be found on www.citroen.co.uk/fleet or by contacting Citroën Fleet Connect on 08457 940 940.
